## FACTS AND OBSERVATIONS

### A Trip to Farmers, Salt Lick, Yale and Scranton.

Our representative left Mt. Sterling Tuesday morning at 9:12 o'clock. The first stop was at Farmers.

The mills are now closed down because there has been no recent tide to cut the logs which are in the creeks above. Trade was quiet. We failed to hear any news of importance. As we traveled around we find men who are not yet reconciled to the Democratic majority. The thought frequently occurs to us if any Democrats are dissatisfied, how can they hope of altering their condition by affiliating with W. S. Taylor and other chief leaders in their struggle for civil rights by the assassination route and the Republican State Convention, which he ardently endorses. Taylor, we must let men think and act for themselves, trusting that after while the right will prevail. We dined with Mr. H. F. Martin.

At Salt Lick we carried about 25 hams paying our respects to the business men. At 4 o'clock, in company with W. T. Colvin, the popular salesman for Trimble Bros. Wholesale Grocers, we journeyed toward Yale. It is having a fine trade.

We had made our first visit to Yale early in April. The day's work was done at the mills at 5 o'clock, so the farmers were resting after supper when we arrived. We purpose to go to Scranton 8 miles distant. At 3:45, during a heavy rain our train pulled out. Those who could crowd onto a cab were in a measure protected from the storm. A man might as well be drowned as scared to death. We must admit that at that narrow gauge road with rolling stock not the best, we were somewhat restless as our train with cars in front, planks and rocks in the darkness and storm.

#### SCRANTON.

In 1/2 of an hour we were at the Scranton House. We asked but few questions, nor disturbed the social life of cards—except to ask for a

After reading the Sunday School report we were soon asleep. Having heard of the enterprise of the Onoch Lumber Co. we were anxious to get a view of the settlement. Before 10 o'clock the train carrying logmen in teams pulled out for the woods after their run.

Mr. John S. Phillips, who is largely interested in the water-works plant at Mt. Sterling, is General Manager. As he was in Mt. Sterling we saw the pieces of meeting him. F. C. Garbinger is Superintendent.

Water W. Pierce, a bustling young man, is in charge of the store, where large trade is carried on. Employment is now given to about 110 men. The output consists of oak and poplar lumber, ties and laths. A visit to such a plant when in full operation is of interest. The company now operates 12 miles of road. There are 42 plain box cutters in the settlement and there is not any regularity in the lay out. The hotel is kept by Mrs. M. L. Yable. We say this because the husband, who is also a back-sitter, referred us to the wife when we wished to pay our bill.

Rev. E. O. Guernant will soon begin a protracted meeting at Scranton. Here stands the stack of the old Beaver Furnace built in 1819.

There is usually one train a day from Scranton to Yale, running after dark. We did not wish to remain so long and having failed to get transportation, we decided to walk to

YALE EIGHT MILES AWAY.

We admit that we did not relish the job, but the country editor must have experiences. Moreover by going, we could reach home at 4 o'clock, whereas, by waiting, we would get to Mt. Sterling next day at 2 o'clock. With a full head of steam we started down the track. When more than half a

mile we sat down on a log and entered in an alliance with W. W. Hamilton. We traded even. He was to read the ADVOCATE and I was to be taken in his buggy to Yale. Yes that was trading! We were out for hypos, all things to all men that we may keep the MT. STERLING ADVOCATE far in advance of its competitors. While he was hitching up the writer crossed the field over a bridge where were three men and a lady looking at a car. We secured 2 subscribers and probably would have gotten the lady had she not been the wife of one who authorized. Before we reached Yale two more were enrolled, making five since leaving Scranton.

Some editors say: "We never ask a man to take our paper." They are modest and rather back numbers and may be rich. We regard our work as honorable and push it.

Pass those beautiful laurels blooming over the creek? No indeed. They will be appreciated at home. Mr. Hamilton drove into the creek and soon we had those beauties. A bride at Yale and nine brides (besides the writer's family) in Mt. Sterling enjoyed those flowers.

We wish to thank Judge W. C. Taylor, of Menifee, for having that dangerous road above the creek and railroad repaired. Why is it that so many County Judges permit road-owners to neglect their work? A road with great chug holes, or logs and rocks, or slanting on a hill-side is a give-away to the enterprise of a County Judge or overseer. There is need of a craze or agitation for good roads, especially where there is no pike, and even some pike could be improved.

#### FRUIT AND CROP.

The blackberry crop will be enormous, peaches and apples abundant. We saw but little wheat; corn is making a fine growth. We heard that spring-chickens are ripe.

#### YALE.

The extensive and substantial improvements being made by E. W. Strack indicate that he expects to carry on business for many years. There is nothing cheap or flimsy in that building he is erecting. When the new plant is in operation in a few weeks employment will be given to more than 400 men. On our next visit we will have something to say about this and other things.

We noticed that the men in town were contributing money, and ascertained that a few weeks ago Mr. L. Cox, while breaking rock for the canal foundation, received injuries in an eye which resulted in the loss of it.

The poor eye may have with you always, and whenever you wish, you may do them good. The Lord reward a cheerful giver.

At 1:45 the train pulled out and we were at home for supper.

When a boy turns his halibut pocket inside out we marvel at the quantity and variety of articles he has stowed away. Odd lengths of strings, marbles, a horse-chestnut, a top, brass nails, nicky-nut, an apple, and many more articles are gathered by this "snapper up of uncon sidered trifles." We think the collection must be made on a boy's pocket, and it is. But do we ever think of the variety and miscellany of the substances we put into the pocket of our stomach? There's the apple and the nut, and things become quite as heterogeneous as brass nails and with no more food value than so many marbles. And yet we wonder that the stomach "gives out." When the stomach breaks down under the strain of excessive eating and irregular meals it can be perfectly and permanently restored to health and strength by the use of Dr. Pierce's Golden Medical Discovery. The actions of the medicine on the stomach and other organs of digestion and nutrition is so marked, that relief from disease is at once experienced, and the headaches, liver troubles, kidney disorders, skin eruptions and other symptoms of diseased stomach are quickly cured. Whenever the use of a laxative medicine be indicated, use Dr. Pierce's Pleasant Pellets. They act in harmony with the "Discoveries" and assist its action by purging the bowels of foul accumulations.

## ROYAL

### The Absolutely Pure BAKING-POWDER

is the baking powder of general use, its sale exceeding that of all other baking powders combined.

Royal Baking Powder has not its counterpart at home or abroad. Its qualities, which make the bread more healthful and the cake of finer appearance and flavor, are peculiar to itself and are not constituent in other leavening agents.

Great efforts are made to sell alone baking powders under the plea that they are so many cents a pound cheaper than Royal. The admission that they are cheaper made is an admission that they are inferior. But alone powders contain a corrosive poison and should not be used in food, no matter how cheap.

#### Brief Sketch of Rev. H. P. Walker.

In our last issue we mentioned the death of Rev. H. P. Walker, which occurred in Lexington, Ky., on Saturday evening, June 23, 1900.

The dead minister was a native of Fleming county and at the time of his death was in his sixty-fourth year. His early life was spent in securing an education and later he entered the ministry of the Methodist Episcopal Church, taking charge of the church at Mt. Carmel. At the outbreak of the Civil War he was appointed to the pastorate of the Hill Street M. E. Church in this city. Later he had charge of churches in Mt. Sterling, Covington, Newport and Cynthiana, from which latter place he was again sent to the Hill Street Church in Lexington. This was about eighteen years ago, and at the expiration of his pastorate of four years he became the Presiding Elder of the Covington and Lexington districts.

Four years ago, owing to ill health, he retired from active pulpit service and lived quietly at his home. During his long career in the ministry Dr. Walker had filled every position of honor and trust within the realm

of the Kentucky Conference, being a delegate to every general conference during his service.

He was married in 1860 to Miss Catherine Keener, of Fleming county, who died in 1886. To this union were born Mrs. Emily Walker Her, Samuel Pierce, Mrs. W. F. Shuman, with an Keener, Lea and Fay Louise, deceased.

The funeral services were held at the family residence, Rev. Drs. Sims, Danile, Raul and Deering officiating. The remains were taken to Flemingsburg for interment.

**Cheap Labor.**  
The State Prison Commissioners have closed contracts for the labor of 400 convicts at Frankfort for forty cents per day per man, and the labor of dry convicts at Edenville at the same price.

A gentleman recently cured of dyspepsia gave the following appropriate rendering of Burns' famous blessing: "Some have meat and cannot eat, and some have want that want it; but we have meat and we can eat—Kolob's Dyspepsia Cure has thanked." This preparation will digest what you eat. It instantly relieves and radically cures indigestion and all stomach disorders.

## ELECTION LAW.

Where we dispatched to Frankfort for the purpose of presenting to the General Assembly a new election law, this is what we would offer: As the State Commission we would recommend the Chief Justice, the Governor of the State and Speaker of the house. We would then cast lot and according to result would appoint county commissioners in alphabetical order, giving one county two Democrats and one Republican, the next two Republicans and one Democrat, thus alternating, until all the counties had been supplied and thus appointed should be reversed each year, for instance: the county which had two Democrats and one Republican should be two Republicans and one Democrat, so that party rivalry would be obviated through fear. Then the laws governing election officers and their duties should be enacted and we believe with this we would have a non partisan and just law, one that should satisfy all men.

At the beginning all State Commissioners would be Democrats, and would always be so, so long as Kentucky remains a Democratic State, but if they were in any way unjust, the county commissioners throughout equally divided, as it would be, could serve to check them. It is evident that an election law is needed in Kentucky and our people should get their heads together in order that an acceptable law may be enacted.

## A SHADOW.

The Republican party lays claim to the prosperity of the nation. We can't see much in this claim. If it was not that we had borrowed a vast amount of money and that we owe that amount, there might be some room for talking of our prosperous condition. Products can be high, labor may advance, factories may hum, but we are not reducing our debt, and on the contrary continue to borrow and pile up our obligations hence it seems to us the web the Republican party is weaving about us is becoming closer.

## ARROGANCE.

No one can read the proceedings of the Philadelphia Convention without noting the arrogance of Republican leaders. It is boldly assumed by them, that they are the only party capable of managing the affairs of this nation, and logically that they alone are entitled to rule, and still further that they should hold the reins of government to see that we have prosperous times. They even claim the credit for the rains and sunshine, good crops, freedom from pestilence and famine. The same line of reasoning leads them to advocate the policy of imperialism, which means that this country should be converted into a military despotism ruled by soldiers and not by free men. In the Virginia Convention, which met to act on the proposed Constitution for the United States, Patrick Henry opposed its adoption on the ground that it laid the foundation for despotic government; and he said further that in his visions he could see the country filled with armed soldiers. Imperialism means nothing short of this, and this dark vision now lies in the background of Republican policies. The people will rebuke this party, at the polls this fall.

## AMUSING.

With a retentive memory there are some incidents that may be properly classed under the above head. For instance that speech of the honorable John Yerkes in seconding the nomination of William McKinley. Liberty! It was the kettle that called the pot black. If Taylor did receive the majority of the legal votes cast (the board of contests says he did not) and if it is true that the office of Governor was lost to him by unfairness would it not occur to a thinking man that the Democrats are following that precedent established by the Republican party when Democracy was robbed of the electoral vote and Hayes was made President of the United States. When the Liberty loving people feel constrained to specify as did Mr. Yerkes and other followers of fugitive Taylor, would it not be wise to pause and give a few words of explanation? Who would deny that Samuel J. Tilden was robbed of the presidency?

## THE MAN.

In our canvass for the most capable and strongest man to succeed Judge James H. Hazelrigg, the finger of sober judgment points to Judge James Benton, of Clark county. The judge is a man after our own liking. While he would be glad to be honored with the nomination, it is not with that degree that party should be sacrificed for self. He desires and we want the very strongest man, the best qualified for the position, who can accomplish most for the party.

Hon. J. R. White, of Irvine, candidate for the Democratic nomination for Congress, was here Saturday and addressed an audience at the Court-house. Mr. White is a well posted Democrat, fearless in his arraignment of political corruption. His speech was well received. While he had many friends on his arrival he had more when he left the city.

The city is full of rubber tires just now—the latest things. These wheeled conveyances behind those fine horses we see almost splitting the pike arouses our envious nature just a little bit.

## Notice.

Any sum you may owe us is due. Kindly consider this a demand for money and settle without waiting for us to call on you for the amount. Your itemized account is ready to be received.

GURRUS & Hazelrigg.

## FOR CONGRESS.

Mr. Frank Hopkins, of the county of Floyd, has announced for Congress in this District. It will be remembered by Democrats that for the past three terms Mr. Hopkins has been urged to become a candidate, but each time he has been positive in declining. Such influences have been brought against him at this time that he has yielded to the wishes of the people.

Mr. Hopkins is a sound Democrat, a moral and competent man, one whom the people, regardless of party, should delight to honor. He is the people's candidate, pulled away from his business with the demand that he enter the race for them. So it is Mr. Hopkins is before the Democracy by urgent demands.

All legal voters devoted to the principles of the Democratic party and desiring to see those principles succeed, and who, by participating will feel in honor bound to support the nominee, have a right to participate and are hereby invited to do so, as well as all young men who desire to affiliate with the Democratic party, who are not twenty-one years of age, but who will be at the coming November election, 1900, are entitled to vote in said primary.

This, June 25, 1900.  
H. R. PREWITT, Ch'm.

## A SURE THING

Mt. Sterling Will Have Water Works Ere Many Days.

Money Paid For Howard's Mill Property.

The money for Howard's Mill property has been paid and the mill, together with water privileges, is now owned by the water company. The property is a guarantee to the city that the water plant will be constructed within a specified time, and should they fail to comply then the water privileges above mentioned go to the city, but the citizens of Mt. Sterling can be sure the property will never become city property for the reason the plant will be constructed. At what time a force of hands will be put to work is not known, but the people at the head of this are not around making presents of \$4,000 per city. Now to all appearances the water plant is as much a reality as the main were laid, standpipe erected, plugs in and residences had passed through the hands of plumbers. Of course this is subject to unforeseen difficulties, but we confidently expect the building of a water plant here.

## Oil and Gas.

The Mt. Sterling Oil and Gas Co. are down near 650 feet; at a depth of 275 feet indications were flattering for a gusher, but since it has been hope against hope. If a paying flow is not found at a less distance they will go to the end of their rope, 3,000 feet. S. M. Robinson, President, and D. M. Shively, South Bend, Ind., and Dr. Norburt, of Madison county, are here looking after their interests. Mr. W. H. Kemler, geologist, Pittsburgh, head of exploring corps and is here through curiosity.

The Minutes of the General Association of Kentucky Baptists are out. In appearance they have been patterned after former publications at this office. Typographical errors are no more numerous than in other similar publications. They have the imprint of the Baptist Book Concern, but work was executed by the Chas. Deering publishing house, Louisville, and while not up to former editions, is gotten out in good taste. Secretary Rev. J. K. Nunnally has done his part well.

The Macatawa Bay Resort, Holland, Michigan, of June 27th, makes the following statement concerning one of our citizens: C. P. Chenault, of Frankfort, Kentucky, captured a beautiful string of black bass near the hotel a few days ago. The largest weighed 44 pounds while the average was about three or three and a half. A fish dinner at the hotel followed.

Now this is so much like Courtland, though a fish story, we accept it as said.

Before another issue of the ADVOCATE the National Democratic platform will be made and candidates named for President and Vice-President. The men in charge of this responsible matter are representative Democrats. They are doing for me that work I have entrusted to them and when the platform has been made it will be mine because I have made it, and the candidates named will be mine because I have named them.

Prof. L. S. Barber, whose residence is near Levee, this county, and who has been an instructor in Clark county for years, has decided to open a select school with a limited number of pupils in this city. Prof. Barber comes highly recommended as a scholar, a gentleman and educator.

Some weeks ago a mad dog got a two of the herd showed signs of hydrophobia, becoming wild and vicious. One in its rage became entangled in a barbed wire fence, cutting itself badly, and had to be killed. The other suffered intensely for two days and died. K. J. Hampton, Assistant Quartermaster in the Volunteer Army, has appointed Albert C. Roberts, of Lexington, as Civilian Clerk. Capt. Hampton has been assigned to take the harbor boat Steamer of the harbor service from New York to San Francisco. The Steamer will sail from New York July 2 and go around Cape Horn. The Masonic picnic, given Saturday 23rd by the Masons of Clark and Madison counties at Boonesboro, was attended by nearly two thousand persons, and the occasion was an interesting and enjoyable one for all. Judge Jas. D. Black, of Barbourville, was the orator of the day. It was perhaps the largest crowd that had gathered on this historic site since the famous semi-centennial celebration held there in 1840, at which forty thousand persons were present, three thousand citizens being in military dress. Military companies from Columbus and Cleveland, Ohio; Maryland and Virginia; and an artillery company from Frankfort, Ky., were present.

There were only two persons present on the 23rd who were at the famous gathering in 1840. These were Judge James Flanagan and Mr. Wm. Lala, of Winchester.

## Kill the Dogs.

A fine cow belonging to Col. J. N. Crutcher, of Frankfort, died from hydrophobia. A hog which was bitten at the same time, also died. Frankfort is also over run with worthless curs.

Fatal mistakes were made by those who do not heed the earlier symptoms of kidney or bladder trouble, that often end in Bright's disease or diabetes. When Foley's Kidney Cure makes the kidneys well, how foolish it is to delay.

# CANCER Cannot be Cut Out or Removed with Plasters

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form. Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for the poison?  
Cancer runs in families through many generations, and those whose ancestors have been afflicted with it are liable at any time to be stricken with the deadly malady.

## Only Blood Diseases can be Transmitted from One Generation to Another

—Further proof that Cancer is a disease of the blood.  
To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

S. S. S. enters the circulation, searches out and removes all taint, and stops the formation of cancerous cells. No mere tonic or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health. A little plimpe, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.

Mrs. Sarah M. Keeling, of Windsor Ave., Bristol, Tenn., writes: "I am at years old, and for three years have suffered with a severe form of Cancer on my jaw, which the doctors in this city and was treated, and that I could not live more than six months. I accepted their statement as true, and had given up all hope of ever being well again when my doctor, knowing of my condition, recommended S. S. S. After taking a few bottles the sore began to heal, much to the surprise of the physicians, and in a short time made a complete cure. I am pleased in fact, my appetite is splendid, sleep is refreshing—in fact, am enjoying perfect health."

Our medical department is in charge of physicians of long experience, who are especially skilled in treating Cancer and other blood diseases. Write for any advice or information wanted, we make no charge whatever for this service.

#### HOWARD'S MILL.

The children of the Howard's Mill Sunday School are rehearsing for a Children's Day exercise, in the interest of the Bible Fund of the Sunday School board, to be given Sunday, 11 a. m., July 8th. Come and encourage the children.

The pastor of the Howard's Mill church will begin a protracted meeting assisted by Rev. W. J. Bohn July 15th.

The church feels proud of her young licentiate, D. E. Willis. He preached his first sermon while Rev. Leonard was away at the General Association. He will spend the summer selling the life of Moody in order to secure means to return to Georgetown College next fall.

A pathetic incident occurred Tuesday morning, June 19th, on the L. & N. train to Lexington. The characters in the incident were a demented man who was being taken by a sheriff to the asylum at Lexington and a prisoner who was being taken by an officer to the penitentiary at Frankfort. They were seated on opposite sides of the smoker.

Shortly after leaving Paris the demented man, who had a religious mania, arose and pointed his finger at the prisoner and began to sing in a weird way:

Jesus loves you, Jesus loves you,  
Jesus loves you for he told me so.

The prisoner moved uneasily in his seat and eyed the lunatic keenly. The lunatic sang two other songs, making gestures toward the prisoner, and wanted the officer to take his place in the asylum and let him (the lunatic) go to the penitentiary with the prisoner.

When the train reached Lexington the demented man arose and sang, with strange gestures:

I'm going home, I'm going home,  
I'm going home, forever more.

He said to the prisoner that the home he meant was in the asylum, but they would meet again over the dark river.

The demented man and prisoner were both white men from Falmouth, the convict going up for a year for malicious cutting. He had previously served a term for manslaughter.—Bourbon News.

After many intricate experiments, scientists have discovered methods for obtaining all the natural digestants. These have been combined in the proportion found in the human body and united with substances that build up the digestive organs, making a compound called Kodol Dyspepsia Cure. It digests what you eat and allows all dyspepsias to eat plenty of nourishing food while the stomach troubles are being radically cured by the medical agents it contains. It is pleasant to take and will give quick relief.

Many birthdays come and Miss Davis continue to grow in beauty and the enjoyment of life's sweets.

Two deaths.

She was a woman, worn and thin. Whom the world condemned for a single sin; They cast her out on the highway. And passed her by as they went to pray.

He was a man, and more to blame. But the world would find a breath of shame. Beneath his feet he saw her lie. He raised his hand and passed her by.

They were the people who went to pray At the Temple of God on a holy day. They scorned the woman, forgot the man. It was ever thus since the world began.

Time passed on and the woman died. On the Cross of Shame she was crucified; But the world was stern and would not yield, And they buried her in the people's field.

The man died, too, and they buried him In a casket of cloth with a silver rim. And said, as they turned from his grave away, "We have buried an honest man to-day."

Two mortal knockings at Heaven's gate, Stood face to face to inquire their fate. They carried a message with earthy side, But she had a pardon from Love's Divine.

It was a judge's twist and vice, Which, think you, entered his life? Not he who was of old and would not win, For the woman above was believed in.

Farmers are very busy with their crops. Wheat, meadow, tobacco and corn are all in good shape and above the average for this time of the year.

Dr. Northcutt, Manager Mt. Sterling Oil and Gas Company and Judge A. A. Hazlrigg, were in our neighborhood last week. Dr. Northcutt was prospecting for oil. He leased several farms and will begin drilling for oil sometime in the near future.

If there is a law for cruelty to animals it should be enforced against three negro men of this place. On last Sunday morning they went to Mt. Sterling, hired a horse and buggy and after filling up on moon whiskey

went to Camargo to a negro meeting, started a disturbance and were driven away. They then came back to Grassy Lick and drove the horse at least seventy-five miles up and down the pike that afternoon at a rapid gait. The livermy should have them arrested.

**Read This at Your Dinner Table.**

"The Indian Witness" says: "The pressure of famine in Western India and in some parts of the central provinces is becoming more acute than for some time past. Pathetic appeals for assistance are reaching us from missionaries. A few contributions, we are glad to say, have come to hand for distribution to those who are fighting starvation and death in behalf of the hungry multitudes. Apart from those to whom relief works are inaccessible, there are many Indian persons and helpless children who must inevitably perish unless private charity soon reaches them. I grieve to think of our hungry fellow-Christians, for whom other religions will do nothing, seeing them do so little for those of their own faith. We appeal on behalf of all these classes to the Christian public, trusting God will put it into the hearts of many to devote themselves, in season, that they may help to put bread in the mouths of famishing people and save many children from a cruel fate."

While you are enjoying your beautiful and beautiful feast, there are hundreds of people in India who are barely enough of food to keep soul and body together, while thousands on thousands are dying of starvation. Many of these are members of churches—our brothers and sisters in Christ. The missionaries ask us for help.

Having concluded the reading, take a family collection at the dinner table, and hand it to your pastor, that he may send it directly where it is needed. If pastors will call attention to the needs of these starving Christians from their pulpits, and exhort each family to take a dinner-table collection the same day, they will help to relieve a large amount of suffering. The pastors of Mt. Sterling have made a united plea for the sufferers of India and this plea has been published in all the papers. The banks have consented to act as trustees of the fund. If a member of our family would act on the above suggestion the fund would be greatly increased. Suppose you try it?

The law holds both maker and circulator of a counterfeit equally guilty. The dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks your life to make a little larger profit. You cannot trust him. DeWitt's is the only genuine and original Witch Hazel Salve, a well known cure for piles and all skin diseases. See that your dealer gives you the DeWitt's Salve.

**Strange Uses of Postage Stamps.**

Most of us have read of rooms which have been papered entirely with canceled postage-stamps, these rooms existing in two well-known cases at Inns which are very popular near London with stopping cyclists and walking tourists. But certain monks at the Hospital of St. Jean de Dieu, at Ghent, have utterly transformed all this by, in their leisure moments, decorating the walls with gorgeous landscapes, glowing with color and full of life, which are formed entirely by means of postage stamps of all the nations of the world. Palaces, forests, streams and mountains are represented, butterflies flit about the air, birds of beautiful plumage perch on branches, snakes and lizards glide about, and innumerable animals find place here and there. The pictures are most artistic, in the style of Chinese landscape gardening, and already between nine and ten millions of stamps have been used.

There is more catarrh in this section of the country than all other diseases put together, and now the last few years we suppose incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable, science has proved catarrh to be a constitutional disease, and therefore require constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous membrane of the system. They will cure you for any case of catarrh to cure. Send for circulars and testimonials.
